

CAST 2011 Proposal Review Rubric

Scoring Categories

- Professional Development—Session involves pedagogy, methods, specific content and/or teacher resources (not just lessons or units given to participants)
- Connection to TEKS—Session targets specific science TEKS for the designated grade levels OR involves methodologies that reach across all TEKS
- Safety—Session recognizes potential safety issues and addresses them appropriately. Proper safety guidelines will be followed to prevent putting students or teachers in harms way!
- Appropriate to Grade Level—Session content and materials are appropriate for the suggested audience
- Description of Workshop—Session is described clearly, with enough detail to understand what activities will take place and how

Categories	Score: 4	Score: 3	Score: 2	Score: 1	Score: 0
Professional Development	Innovative, new discoveries	Up to date	Common practice	Out dated	Counter productive
Connection to the TEKS	Specific TEKS listed, or TEKS are not applicable for this session		General TEKS listed, but not specific		TEKS are not listed
Safety Addressed	Safety is recognized and modeled or there are no safety issues	Safety is recognized and addressed in the workshop or with the use of materials	Safety is recognized, but not addressed	Mild safety concerns	Strong safety concerns about the content of the workshop or materials involved
Appropriate to Grade Level	Content, equipment and materials match target, appropriately challenges audience, and applicable to grade level		Workshop is appropriate for suggested audience or grade level		Content, equipment, and/or materials are not suitable for the addressed audience and/or grade level
Description of Workshop	Clear understanding of workshop content	Good understanding, fairly specific	General description, but no specifics	Vague description	No description provided
